Mini-Project Evaluation Rubrics (30 Marks)

SCHOOL OF COMPUTER SCIENCE ENGINEERING & TECHNOLOGY

MINI-PROJECT RUBRICS

Programme:	**Semester:**
Course Code:	**Course Name:**
Faculty Name:	**Max. Marks: 30**

Project Title: _____

Mini-Project Rubrics					**Name of Student 1**	**Name of Student 2**	**Name of Student 3**	**Name of Student 4**
Performance Levels	**Excellent – 3 marks**							
	Good – 2 marks							
	Average – 1 marks			**Date of Evaluation**	**Enrolment No**	**Enrolment No**	**Enrolment No**	**Enrolment No**
	Poor – 0 marks							
	REFER TABLE-1 FOR DESCRIPTORS		**Max Marks**		**Marks Obtained**	**Marks Obtained**	**Marks Obtained**	**Marks Obtained**
Criterion & Sub- Criterion	**Problem Analysis (6 marks)**	**Problem domain identification and analysis**	**3**					
		Review of existing systems and project feasibility	**3**					
	Project Design (6 marks)	**Objectives and Methodology of the Proposed Work**	**3**					
		Relevance of Algorithms / Techniques	**3**					
	Project Implementation (6 marks)	**Synchronization of Project Design & Implementation**	**3**					
		Implementation & Demonstration of Modules	**3**					
	Project Report (6 marks)	**Organization and structure of Project Report**	**3**					
		Compliance with prescribed Report Format	**3**					
	Communication (6 marks)	**Clarity and Organization of Presentation**	**3**					
		Contribution by each team member	**3**					
Total Marks			**30**					
Evaluator's Overall Comment								

Faculty Signature: ……

TABLE 1 – MINI-PROJECT RUBRICS WITH PERFORMANCE DESCRIPTORS

Criterion	Sub-Criterion	Excellent – 3	Good – 2	Acceptable – 1	Poor – 0
Problem Analysis	**Problem Domain Identification & Analysis**	Clearly identified with in-depth analysis and strong justifications	Clearly identified with adequate analysis	Identified but analysis is superficial	Unclear or incorrectly identified
	Review of Existing Systems & Project Feasibility	Comprehensive review with clear feasibility analysis	Adequate review and basic feasibility	Limited review; weak feasibility	No meaningful review or feasibility
Project Design	**Objectives & Methodology of Proposed Work**	Clear, measurable objectives with well-defined methodology	Clear objectives and methodology with minor gaps	Objectives stated but methodology vague	Objectives/methodology unclear or missing
	Relevance of Algorithms / Techniques	Highly relevant and well-justified	Appropriate with some justification	Used but relevance is weak	Inappropriate or incorrect
Project Implementation	**Synchronization of Design & Implementation**	Fully aligned and consistent	Minor gaps between design and implementation	Partial alignment	No clear alignment
	Implementation & Demonstration of Modules	All modules correctly implemented and demonstrated	Most modules correct with minor issues	Some modules functional	Modules not working / no demo
Project Report	**Organization & Structure of Project Report**	Well-organized, logical, easy to follow	Organized with minor issues	Weak structure	Poorly organized
	Compliance with Prescribed Report Format	Fully compliant	Minor deviations	Partial compliance	Non-compliant
Communication	**Clarity & Organization of Presentation**	Clear, confident, and well-structured	Clear but lacks flow	Understandable but disorganized	Unclear and disorganized
	Contribution by Each Team Member	All members contributed equally and effectively	Most members contributed	Uneven contribution	Minimal or no contribution
